To be considered Tamper Resistant a prescription must contain at least one of the following three characteristics:

- 1** one or more industry-recognized features designed to prevent unauthorized copying of a completed or blank prescription form;
- 2** one or more industry-recognized features designed to prevent the erasure or modification of information written on the prescription by the prescriber;
- 3** one or more industry-recognized features designed to prevent the use of counterfeit prescription forms.

To be considered tamper resistant, a prescription pad must contain all of the foregoing three characteristics. Failure of a State to enforce the tamper-resistant pad requirement of section 7002(b) may result in the loss of Federal financial participation.
